Vikas Gholap

LinkedIn | 8857978314 | Porfolio | vikasbgholap27@gmail.com | GitHub

Summary

• **Android Developer | Full Stack Developer** - Skilled in Java,Kotlin, Jetpack Compose, and Firebase, building scalable and user-centric mobile apps. Passionate about real-time databases, API integration, and AI/ML-powered solutions.Focused on innovation, performance, and seamless user experience.

Skills

• **Languages**- Java, Kotlin, Python, PHP,C++,SQL

• **Mobile App Development**- Android SDK, Jetpack Compose, Kotlin Coroutines, MVVM, XML, LiveData, Navigation Component, Material Design, UI/UX

• **API & Backend Development**- OkHttp, Retrofit, Volley, REST APIs, FCM (Firebase Cloud Messaging), Google Maps API,

• **Cloud & Database Technologies**- Room DB, SQLite, Firebase Realtime Database, Firebase Firestore , SharedPreferences

• **Development & Collaboration Tools**- Git, GitHub, Figma, Unit Testing,Beta Testing, Power BI, Data Structures and Algorithm's

Experience

• **Android Developer, Training**	**Mountreach Solutions**	***Amravati, India***	**05/2023 - 07/2023**
• **Software Developer, Intern**	**Yug-Yatra Retail pvt.limited**	***Remote***	**02/2025 - 04/2025**

Education

Bachelor of Technology (B.Tech), Computer Science and Engineering with Honour degree in AIML

• Government College of Engineering , Chhatrapati Sambhajinagar,India	**Pursuing**	CGPA: 9.187	08/2024 – 06/2027

Diploma, Information Technology

• Government Polytechnic Ambad, Maharashtra, India	Percentage: 92.94%	06/2021 – 06/2024
• 10th Jijamata Vidyalay Pirkalyan , Jalna	Percentage: 84.20%	2021

Projects

• **CITY-FLUX- Smart traffic & Parking** GitHub: Developed a Smart Traffic & Parking Management System with Citizen, Police, and Admin modules. Implemented real-time traffic monitoring using OpenCV and user data, along with parking management, incident reporting, and automated police assignment. Used Firebase for backend, storage, and notifications.

• **AGEWELL -Elder Care App** GitHub : Built a health monitoring app with SOS alerts, medication, and real-time hospital mapping using FCM, Firebase, and OpenStreetMap API. Developed with Kotlin, Java, and MVVM for seamless user experience.

• **SNAPEAT - Nutrition tracking app** GitHub : Developed a nutrition tracking app integrating Java, Kotlin, Google ML Kit, Spoonacular API, USDA API, OpenFoodFacts API, and Firebase to calculate protein, carbs, fat, and energy (kcal) from food images or barcodes, with features for meal planning, water tracking with reminders, and personalized user logs.

• **EMO-MIRROR - Emotion detection App** GitHub:Developed a real-time face emotion detection app using Java, ML Kit, and CameraX with on-device analysis, confidence scoring, emotion insights, and interactive progress tracking.

• **STUD-HELPER - Student Helper App** GitHub: Developed a Java-based Android app with Firebase for resume building, timetable and task management, note scanning/summarization (OpenRouter API), reminders, and CGPA calculation.

Achievements

National Level Project Competation : 1st Place Winner at National Level Project Competition, organized by Prof. Ram Meghe Institute of Technology and Research, Amravati – Developed AgeWell App

Wings Hackathon: 3rd Winner at Wings Hackathon organized by Government College of Engineering Aurangabad , CSN

Wings Innovex: 3rd Winner at Wings Innovex - National Level Project Competition organized by GECA,Aurnagabad , CSN

Certifications

• **Android Developer**: Mountreach Solutions PVT ltd. • **NPTEL**: Soft Skills • **Simplilearn |SkillUp**: Power Bi for Biginners
